REPUBLICANS PLEASED WITH THE OUTLOOK.

Laboring Men Satisfied With Industrial Conditions- No Signs of Trouble.

DISPRANCHISEMENT OF NEGRO

Played Havoc With the Party in North Carolina-Demand for Campaign Literature.

WASHINGTON, D. C., Aug. 21.-Representative White, of North Carolina, is in the city for a few days. Mr. White, who is the only colored representative in Congress, is a member of the house committee on the District of Columbia, and one of the most prominent colored politicians of his state. White has not decided yet whether he will stand for re-nomination or not. He says the outlook is very discouraging in North Carolina for the Republicans, since the recent occurrence looking to the ultimate disfranchisement of the negro vote. Neither of Mr. White's Republican colleagues from North Carolina in the house has accepted re-nomination.

"We are greatly discouraged in North Carolina," said Mr. White, "Only by the most strenuous efforts can we hold the three Republican districts, if at all. In some communities the colored vote is thoroughly terrorized and everywhere it is demoralized. Our only hope is that, the November election be ing strictly a federal election, there may be less effort at intimidation they otherwise. In my district I could get the vote out, I am sure. My phirality two years ago was 2,600, and there is no reason why it should be less, if my people thought that it would be any attempt to vote.

Attitude on Philipping Questian.

At Republican congressional commit tee headquarters in this city no discouraging reports are received from the country at large. The only menace ob-servable in the situation, as often repeated, is from apathy on the part of Republicans. The mass of the voters and material conditions that they may not be aroused to the closeness of the congressional vote.

One decidedly encouraging feature to the Republicans is the report of the feeling among the laboring men. The managers have been making some inguirles recently to ascertain, if possithe laboring vote stands, whether there is dissatisfaction or disgruntlement anywhere along the line that is likely to react disadvantage ously for the Republicans. It is said there are no signs of trouble among the laboring men. On the contrary, there are indications of general satisfaction and a tendency to give the Republican party credit for the benefits which, it is claimed, have come to labor through the effect of Republican legislation. It is hardly necessary to add that the Republican campaigners will lose no opportunity to claim the credit which they may think rightly belongs to the In Pennsylvania, New Jersey and

manufacturing New York, where the labor vote counts heavily, the outlook said to be especially bright for the Republicans, and this, it is believed, may be taken in a measure as a criterion for the remainder of the country These sections have felt the benefits of the Dingley tariff act very materially Nearly everything which is made in New York, New Jersey and Pennsylvania is dependent to a greater or less degree upon the protective tariff, and there has been a wonderful stimulus to industry since the enact ment of that legislation.

The Country at Large.

Inquiries were also made as to the position of the workingmen upon the Philippines question. It is said the talk seems to be adverse to accepting the Bryan programme. Even in cases Where men were not absolutely in accord with the full administration programme, or what is popularly supposed o be the ultimate dent with respect to the Philippines there was disinclination to accept the Democratic alternative, The workingmen seem to feel, it is

said, that the Republican party is a

tious problems of the Philippines as the Populist-Democratic outfit of Mr. Bryan, and that there is danger in swapping horses in the middle of the These are the reports which come to the managers from the surface talks with the laboring men in different communities.

Information comes from the Chicago headquarters of the two committees that there is an increasing demand for campaign literature, showing an awakening desire on the part of the people to post themselves upon the issues of the day. Documents bearing upon the Porto Rican and Philippine questions and upon financial topics are being sent out in large quantities.

The best speeches in Congress upon these subjects were selected early in the summer, and printing establish-ments have been busy for weeks turning them out by the ton. The franked envelopes for their inclosure are printed at the government printing office. and these have been going west in car load lots for some time. Systematic distribution of the campaign literature is being made, and the Republican managers are repeating the campaign of education which resulted as successfully in 1896.

INDEPENDENT CANDIDATE

Will be Named by the Populists for Vice President-The Party Will Hardly Support Stevenson.

CHICAGO, Aug. 21.-The latest reports received here indicate that the Populist national committee which is to meet in this city on the 28th instant may not be as harmonious as was predicted when the executive committee was in session here early in the month.

The meeting is called for the purpos of selecting a candidate for the vice presidency.

When Mr. Towne declined the n nation of the Populists it was generally supposed that Mr. Stevenson would re-ceive the Populist endorsement by general consent. The correspondence which has taken place among members of the national committee of that party since the executive committee meeting in thi city ten days ago make it plain that this result, while apparently still probwill not be accomplished without able. a struggle. Indeed, it is understood that many of the leaders of the party are strongly urging that the committee shall name an independent candidate.

Majority of Officers.

Those who take this position include a majority of the officers of the national committee, among them being Chairman Butler and Treasurer Washburn who are pronounced in their views Vice Chairman Edmiston is also said to incline towards the opinion that wisdom demands that the Populists have a candidate of their own in the fight, Secretary Edgerton is credited with being the only officer of the organization is friendly to the endorsement of Mr Stevenson's candidacy.

Mr. Stevenson's friends claim that Edgerton is working effectively in their behalf. The best canvass of the committee they have been able to make causes them to feel hopeful of the result. Still, those now committed to this course are considerably Lelow a major

Senator Butler and others who agrewith him contend that it will be sui cidal for their party not to have a candidate of their own political faith in the field. They also hold that unless there is a Populist candidate for second place many Populist votes will be driven from Mr. Bryan.

Newspapers in the Colleges.

President Harper has expressed his approval of an address recently made by President Tucker, of Dartmouth, in which the latter said that the newspaper ought to be studied in college; not journalism in the sense in which business colleges propose to teach it. but the actual newspaper Itself. Journalism has, according to the same authority, become such an immense power for good or had in this country that every young man when he comes out of college should know which are worthy newspapers and which are toot. The good ones should be used as "text-texts." The good ones should be used as "text-books," so to speak. In the college course, and every student should pre-pare himself for possible participation in the conduct of a great newspaper, in this the learned president seems just to reverse the French adage that "Journalism leads to all careers," it is evidently his opinion that all careers lead sooner or later to journalism.

An Alligator on His Travels.

Savannah (Ga.) News: One evening ast week, as Walter Pasteur and Lee Rayser: were riding in front of the L. L. Howell's, in the edge of Anthony, they came upon a monster alligator plodding along the road as if he had as much right to the highway as the largest taxpayer in the county, and even more so, as he refused to give half the road. Mr. Howell was called out with his gan, and other weapons, and after the 'gator was killed his skin was taken off and Is now'a souvenir of the event. He was several miles from any pond or stream. Rayser were riding in front of #E. L.

APATHY IN GILMER.

Desired Silence.

Special Dispatch to the Intelligencer

GLENVILLE, W. Va., Aug. 21.—After the most persistent endeavors the Democracy of Gilmer county eventually succeeded in having their campaign formally opened on last Saturday. Every effort had been made to get a large crowd in Glenville on that date to greet the speakers; the local leaders had flaring posters printed and sent to every point in the county, and special couriers were busy heralding the glad The county committee expected at least 800 or 1,000 -people in to hear the fallacles of the Kansas City platform expounded, but by actual count there were only 230 in the court house, of which number included about forty Republicans and several ladies and children. The failure of the people to turn out was a bitter disappointment to the bosses, and surprise, indignation and disgust were obvious in the lineaments of their faces. Addressed the Unterrified.

John H. Holt and George M. McCoy Democratic nominees for governor and attorney general, respectively, were present and were supposed to ostensibly address the unterrified upon the issum of the day; but instead of closely following the promulgations of the Kansas City platform their speeches mainly consisted in vicious attacks upon Republican state and national policies and gross misrepresentations of the present state administration. In the main Judge Holt's speech was a verbatin repetition of his late Parkersburg address. His text; "It is better to tear down the flag than to tear up the constitution," was the gist of his conten tion, and the dangers of imperialism and militarism of which he in his own heart knows that there is not the slightest tendency—were dwelt upon with all the harpings of the demagogue. One amusing incident in the course

of his remarks, and one which demonstrates that the mass of his hearers were not in sympathy with him occurred when he with great dramatic zeal exclaimed: "When the great Dewey captured Ma-

May, he sent a message back to his people gaying that he found a race who was industrious, honest and intelligent far beyond his expectations, und a people more able and competent for self government than the Cubans," and raising his hands high over his head, he continued with great fervor, "and our soldiers began shooting and killing them and they are shooting and killing

Thunderous applause greeted this statement and the old court house shook putting down the insurrection of the point and was so astounded and taken different from what he had planned His idea was to follow up the statement of our soldiers' actions with expression. Filipinos, but as the audience was clear the other leaders were literally paralyzed when their deep-set plan miscar ried. This incident is only an example votes.
